Re: Request for Information Pursuant to CERCLA, 42 U.S.C.  
Section 9601 et seq., for the Berry's Creek Study Area,  
Bergen County, New Jersey.

Dear Mr. Hodge:

In October and November 2002, the United States Environmental Protection Agency (EPA) pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. §§ 9601, et seq., sent your company, and others, letters requesting information with respect to the release or threat of release of hazardous substances, pollutants, and contaminants into the environment within the Berry's Creek Study Area. Our records indicate that you received the Information Request, requested an extension to reply, but that your response was never received by EPA. Your response is now overdue. For your convenience, we are enclosing a copy of the original Information Request that you received

As was noted in the earlier transmittal, response to this Request for Information is required by law. Please note that Section 104 of CERCLA, 42 U.S.C. Section 9604, authorizes EPA to pursue penalties for failure to comply with or to respond adequately to the Request for Information.
